DATA ANALYTICS PROSPECT

Hardworking and detail-oriented Data Analyst with 2+ years of work experience in reporting, data visualization, and automation. Skilled in developing Power BI reports, writing SQL queries, and building automation scripts with Python and PowerShell. Attended Francis Tuttle Technology Center with hands-on training in data analysis and business intelligence. Adaptable and always eager to learn new business technologies, to deliver results-driven solutions for clients.
Core competencies include:

Data Preparation • Data Transformation • Data Analysis • Structured Thinking • Analytical Thinking • Team Communications • Customer Service • Data-Driven Decision Making • Communication

SKILLS

Word, PowerPoint, Excel, PowerBI, SQL, Spreadsheets, DAX, Power Query, Python, PowerShell, Apache Airflow, GIT

EXPERIENCE

FirstLight Analytics   **Sep 2023 – June 2025**
ASSOCIATE ANALYTICS CONSULTANT
Designed and developed interactive Power BI reports to help clients visualize their data and make informed business decisions.
- Utilized DAX and Power Query to make Power BI reports and data models more efficient.
- Automated data processes with PowerShell, Python, and Apache Airflow.
- Interacted with SSMS databases, and transformed data structures using SQL.
- Constantly communicated updates with my project team members and managers about blockers or accomplishments.
- Committed changes from project files and items to version control using GIT.

Winchester Drive-In Theatre   **March 2024 – Present**
COOK
Efficiently prepared menu items while maintaining food safety during busy periods, and using customer service skills to ensure customers are enjoying their time.
- Communicate with other team members to maintain workflow.
- Solving customer issues to satisfy their visit.

Ted's Escondido Cafe   **Sep 2022 – Nov 2023**
RESTAURANT SERVER
Cultivated relationships with customers. Placed orders, managed bills, and handled complementary items through a POS system.
- Utilized the data presented to me to make data-driven decisions.
- Identify, describe, and solve customer needs. Maintain a team friendly environment.
